Thanks. Your Stamp Helps.

I do not pretend to live a life of integrity, but I do aspire in that direction: A life in which each gesture cuts through all the layers of existence cleanly, in which heart, politics, spirit and land are attended to in the economy of a single movement.
Deena Metzger

With the best demonstrated technologies it is now cost-effective to save nearly *four-fifths* of all the oil currently used in the United States. I am reminded of the saying from "Pogo": "We are confronted by insurmountable opportunities."
Hunter Lovins

People need to see that their drops in the bucket are *filling up* the bucket.

ABOUT THIS BROCHURE

Direct mail invitation is still the best way we know to reach new subscribers. But we are very aware of the costs of "junk mail," and have made every effort to minimize the environmental impact of our outreach.

This simple brochure is printed on recycled paper – as is our magazine – and is designed to use the paper as efficiently as possible. We believe that our potential readers don't need a flashy, costly package, and that we can say enough in a small space to support a good decision on whether to subscribe.

Please take a moment to consider this invitation. If you don't accept, please pass it along to a friend, or ensure that it gets recycled. If you'd like more information, please write us. Thank you.

"AN OUTSTANDING MAGAZINE.... HIGHLY RECOMMENDED."
– *LIBRARY JOURNAL*, April 1991

"For the profound and far-reaching changes that are required now, we have to make a fundamental shift in our assumptions ... and consequently in the ways we organize our common life. A new sense of who we are in relation to our world is emerging."
– Joanna Macy

A Quarterly Of Humane Sustainable Culture

— An Invitation to Subscribe —

How did the world get to be the way it is? What can we do to make it better? *IN CONTEXT* is a lively forum exploring these central questions. We seek answers, and discover a heartening counterpoint to the "news." By reading *IN CONTEXT* you can:

- **Gain a balanced understanding of critical issues.** *IN CONTEXT*'s name reflects our editorial perspective: whole systems, planetary, inclusive. We start from the premise that everything is interconnected, and develop each issue around an important and timely theme.

- **Discover promising strategies.** Amid the urgency of the world's social and environmental problems, *IN CONTEXT* keeps the focus on *sensible solutions*. We tell you what *works*, and who's doing it.

- **Meet inspiring innovators.** Our contributors range from well-known writers and researchers to ordinary people with the love and wisdom to strive for a better world. Our interviews with leading change-makers are an unfailing source for positive reflection and empowerment to act.

- **Escape from advertising.** *IN CONTEXT* is supported solely by its readers and subscribers throughout the United States, and in 27 other countries. We are free to publish truth – as we see it – in all its diverse forms.

IN CONTEXT reveals poetry and promise where others see only problems, points to a way forward, and lifts your spirits by highlighting the meaningful avenues for action that exist all around us. Please accept our invitation – with a money-back guarantee – to try *IN CONTEXT*'s unique blend of the practical and the visionary. We look forward to hearing from you.
